DETAILED ACTION

1. An amendment was received from the applicant on May 10, 2006.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Onoue (US 6,287,160).

Onoue discloses the same pivoting arrangement for a marine propulsion device as claimed, as shown in Figures 1-12, that is comprised of a cylinder assembly, defined as Part #86, that defines a cylinder bore, defined as Part #94, and is adapted to be pivotally connected with a watercraft and a marine propulsion device, as shown in Figures 1 and 2, a piston, defined as Part #166, that is supported for reciprocation within said cylinder bore, and a piston rod, defined as Part #90, that is affixed to said piston, extends externally from said cylinder assembly, and is adapted to be pivotally connected to said marine propulsion device, as shown in Figure 2, where at least one of said pivotal connections is formed by a cylindrical end part, defined as Part #100, that is integrally formed on said piston rod, as shown in Figure 4. Said cylindrical end part is

pivotally clamped between a pair of connected bearing portions that are affixed to said marine propulsion device, as shown in Figures 2 and 3.

Allowable Subject Matter

4. Claims 7-9 are allowed.
5. Claims 5 and 6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

6. Applicant's arguments with respect to claims 1-4 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

Art Unit: 3617

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
